Equity Income Fund category.²

INVESTMENT OBJECTIVE & STRATEGY

The Centaur Total Return Fund seeks maximum total return through a combination of capital appreciation & current income.

The Centaur Total Return Fund is a no-load fund that invests in securities of companies that the portfolio manager believes are undervalued but which also offer high dividend yield relative to the broad market averages such as the S&P 500 Total Return Index. In addition to investing in equity securities that offer high dividend yields, the fund expects to generate income from selling covered call options on securities held in the fund. The use of covered calls, in combination with the purchase of dividend-paying equity securities, allows for the inclusion of undervalued, non-dividend paying stocks in the portfolio, while still satisfying the Fund's goal of generating investment income.

FOOTNOTES:

¹ Under an automatic investment plan.

² Lipper scores for Total Return, Consistent Return, and Preservation reflect the fund's historical risk-adjusted returns, adjusted for volatility, relative to peers. The overall calculations are based on an equal-weighted average of percentile ranks for the Total Return, Consistent Return, and Preservation metrics over 3-, 5-, and 10-year periods (if applicable). The highest 20% of funds in each classification are named Lipper Leaders for Total Return, Consistent Return, or Preservation, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2 and the lowest 20% are scored 1. These scores are subject to change every month. Lipper ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information.
